TO BURY ALL STREET WIRES

Governor Dole Favors Contract To Lay Conduits.

Governor Dole takes a keen interest in the proposition to put all electric wires under ground within the business section. He says that the opinion of the Attorney General upon the question of extending the permits for constructing lines to the Century and the Standard telephone companies touched but lightly the power of the Superintendent of Public Works to make a contract for the construction of conduits.

The resolution of the executive council on the subject, after a short preamble, declared: "That as a matter of policy the Superintendent of Public Works be requested not to allow an extension of any permits for the construction of aerial circuits for telephone or telegraph wires within a radius of one mile from the Capitol building."

Further, it was moved and carried: "That the Superintendent of Public Works be instructed to ascertain the feasibility and likelihood of entering into a contract with some company or individual for the laying of underground conduits in Honolulu for the accommodation of all electric light wires belonging to the Government or private companies, and of telephone and telegraph wires as well, either now in existence or to be hereafter laid."

Chas. V. Lindskog, a straggler from the Iroquois, was taken in by the police yesterday. A reward had been offered for his capture by Captain Niblack.

DEATH LIST IN ALPS REACHES 150

LONDON, August 25.—The death toll in the Alps this season has been enormous. Already more than 300 accidents have been recorded, resulting in the loss of 150 lives. No district has escaped. From the Jura mountains, the Dauphin and Maritime alps, the great Swiss ranges and the Austrian peaks, the story is the same. Almost daily there is a tale of perilous adventure, accident and death. The general cause of disaster has been the exceptionally unfavorable weather, combined with unprecedented false economy. Case after case has been due to climbing without guides, in disregard of the weather and snow conditions, while several deaths have been due to the foolish and increasing practice of climbing attired in fashionable costumes, such as lace petticoats and patent shoes. An example of such a fatal fall was that of Miss Gilman, who was climbing Mount Pilatus attired in a smart spring toilet. There was also the case of Mme. Petladoff, whose fatal fall on Mount Sepsol was directly due to wearing smart clothes and a thin pair of shoes. One of the most marvelous escapes was that of Hon. Gerald Fitzgerald on Montserrat. He was passing along a dangerous edge, roped between two guides. Fitzgerald and the underguide, Alner, fell, but the rope held, and young Alner succeeded in clinging to a rock. He saved himself, and reaching a house, telephoned for help. Fitzgerald having broken his right leg. Unable to help himself, he remained for seven hours suspended in midair over a precipice of 10,500 feet, thanks to the indomitable courage of old Alner, who stood motionless those seven hours with his legs propped against a boulder, supporting him at the end of the rope till help arrived.

Classified Advertisements.

WANTED.

AN experienced bookkeeper for a retail dry goods store. Apply by letter, "D," this office. 6587

A PHOTOGRAPH of the laying of the corner stone of Central Union Church. Address Box 288 or Room 609 Stangenwald Building. 6583
